

SERVICE HELD AT CHRIST CHURCH

One hundred people attended Evensong at Christ Church on Sunday last and enjoyed the privilege of hearing an excellent sermon by the Lord Bishop of Calgary, Bishop Sherman is an outstanding figure in the House of Bishops and one of the most able speakers in the West. He was accompanied on this occasion by the Rev. T.B. Winter, B.A. (Rector of St. St. Michael and All Angels, Strathmore) who acted as Chaplain. The service was conducted by the Rev. L. D. Batchelor, L. Th. and the music was capably rendered by Mrs. James. The hearty manner in which the congregation joined in the singing of the old, familiar hymns; the colorful touch of recently gathered flowers; the recent improvements in the interior; the presence of three clergymen in assorted, yet symbolic, apparel—all these combined not only to remind many of services in other lands, but also to make a magnificent act of corporate worship which will ever be remembered as mighty inspiration. The reverent dignity of the ancient formulary and the simple, arresting, compelling phrases of the Bishop doubtless brought peace and a sense of security to every heart.

7th Government Crop Report

(Issued by Dept. of Agriculture)

Excellent crop conditions prevail in the north central and northern parts of the Province. In the south-western area rain is needed. All grain crops are in a satisfactory condition in the district from Calgary to Macleod. Continued drought has resulted in almost a total failure of wheat seeded on spring plowing on the south-eastern part of the Province. Crops sown on summerfallow in this area are light.

Ninety per cent of the wheat is in head and early varieties are already coloring.

The Peace River district has recently received much needed rain and there is a prospect of good yields over a considerable part of the area. Cut worms and lack of early moisture will reduce the crop in some sections. The hay crop will be short.

The hot weather of the past few days is forcing rapid growth and has done much to hasten maturity in the area east and west of Edmonton where growth is rank and ripening somewhat later than usual. Farther south where wind damage was serious in the early part of the season stands are thin, but making excellent progress as a result of heavy rains. East of Drumheller the feed situation has improved considerably but grain yields will be light.

Several small areas have suffered hail damage, but loss from this cause has not been serious.

Pastures throughout the Province are generally good and livestock is in first class condition.

Undisputed Queen of the Pacific

PACIFIC OCEAN RECORDS

How New Times Compare With Old:

Route	Miles	Ship	Days	Hours	Mins.
Yokohama to Vancouver	4280	Empress of Japan	8	3	18
		Empress of Canada	8	10	53
Vancouver to Honolulu	2329	Empress of Japan	4	15	50
		Previous Record	5	13	50
Honolulu to Yokohama	3379	Empress of Japan	6	9	43
		Empress of Canada	7	6	11

Kobe to Yokohama
333 miles
Empress of Japan 15hrs. 54m.
Previous Record 19hrs.

Smashing record after record, the beautiful 26,000-ton Canadian Pacific liner "Empress of Japan" holds an established reputation as the queen of the Pacific Ocean, both in speed and comfort. Her latest accomplishment, on her last 4,280-mile trip, east-bound from Yokohama to Vancouver, was to complete her journey in 8 days, 3 hours and 18 minutes, thus beating her own previous record by 3 hours and 40 minutes. Apart from this she holds records

between Vancouver and Honolulu; Honolulu and Yokohama and Yokohama and Kobe. The last-mentioned record is considered the ship's best speed performance in Japan's history. The commander of this great White Empress, Captain Samuel Robinson, indicated after her last trip that she has still more power in reserve and may well hang up another record in the near future.

DEATH OF MARY JOAN MCKIBBIN

We are sorry to report the death of Mary Joan, the 14 months old daughter of Mr. and Mrs. A.F. McKibbin of Carbon, which occurred on Thursday July 23rd. Mrs. McKibbin and young daughter were spending a few weeks in Champion, and when the doctor announced that the child, which has never been well, would only have a short time to live, it was thought best to return to Carbon. However, the child died before getting here.

Funeral services of the deceased were held Friday afternoon, July 24, from Shavers Funeral home, Calgary, and burial was made in the Burnside cemetery.

CHANGE IN WHEAT POOL POLICY

Following a meeting of the delegates of the Alberta Wheat Pool the Board of Directors announce a modification of the growers' contract and the new policy of operation effective from July 15, 1931 to the end of the present contract covering the marketing of the crops of 1931 and 1932.

Every Pool member will be given the option:

1...Of delivering his wheat on Pool basis, accepting the prevailing initial payment, and participating in any future payments which may accrue from the pooling thereof; or

2...Of disposing of his grain under any of the methods provided by the Canada Grain Act and obtaining full current market price for same. Any portion of a member's grain may be pooled or any portion sold outright for cash.

The new policy comes into effect immediately and members are now at liberty to select the above mentioned options for the disposal of any grain from the 1930 crop which has not already been marketed, as well as for the new crop.

The adoption of this policy means that the Alberta Wheat Pool, as an association, forgoes its right under the contract to insist that the member deliver all or any portion of his wheat on a pooling basis, at the same time enabling him to have all his grain handled through his own facilities and to pool any portion of his wheat he may see fit to pool.

Definite assurance is given that no deduction for elevator reserve, commercial reserve, or for re-payment to apply on the 1929 overpayment will be taken from the proceeds of any wheat delivered by Pool members either for pooling or for immediate sale during the 1931 crop year. Satisfactory arrangements have been agreed upon with the Government of Alberta for the re-payment over a period of years of the 1929 over payment. This will make it possible for the Alberta Pool to carry on this year without taking deductions for same from the 1931 crop.

The extremely low price of grain together with the urgent need for cash throughout the country makes it imperative that the grower get every possible cent for his product, hence

(Continued on back page)

CARBON BOYS COMPETE IN ALTA. TENNIS CHAMPIONSHIPS

For the first time in many years Carbon had representatives in the Alberta Lawn Tennis championships, which were held at Banff this year.

J. Fairbairn and N. Nash competed in the Junior events and both made an excellent showing, which should encourage other Carbon boys to enter next year at Edmonton, where the championships will be held.

J. Fairbairn competed in the Junior (18 years), the Secondary Junior and the Boy's (15 years). In the Junior he lost to Douglas Gunn of Calgary (the Calgary Junior Champion last year) scores being 6-2, 6-4. In the Secondary Juniors Fairbairn won from J. Reigluth, U.S.A. in the first round and defeated G. Crawford of Edmonton in the second round, but lost to D. Gunn of Calgary in the semi-finals, 6-2, 6-3.

In the Boy's Championships Fairbairn defeated J. Tooley of Winnipeg 7-5, 6-3, 6-3, but lost in the semi-final to Stanley Heyden of Calgary, 6-1, 6-1, who won four Championship cups at this meeting.

N. Nash competed in the Boy's Championship only, and defeated R.S. Reigluth U.S.A. in the first round and lost in the next round to S. Gillespie of Edmonton 6-1, 6-1.

ALBERTA NEWS

Business men of the town of High River have presented a petition to the town council asking that the Early Closing by-law be amended so that the Wednesday half holiday will continue the year round.

Unemployment in Alberta totaled 10,313 according to the weekly report just issued by the Alberta Employment service. Of the total, 271 are women and the rest are men.

The warmest weather of the season was encountered in Alberta during the last three days of last week. In some places the thermometer registered 94 degrees in the shade.

Mrs. Wood, wife of the proprietor of the Elnora hotel, dropped dead in her room last week, following a sudden seizure.

Mr. Bannister, proprietor of the Huxley Hotel, was found dead in bed on Monday morning last.

Didsbury Schoolboard has engaged an entirely new staff of High School teachers for the coming school year.

Resolution passed at a community picnic at Vegreville last Thursday when W. R. Howson, Edmonton Liberal member of the Legislature was the leading speaker, asked for a resignation of the Provincial Government "in view of the inefficiency in administration of the affairs of the province." Resolution also asked that a Provincial election be held immediately.

Conditions of sanitation in the City of Drumheller are better today than at any period in the history of the municipality, according to reports of J. Williams, Provincial Sanitary Inspector.

With two contractors working steadily on the east section between Calgary and the Saskatchewan boundary at the present time, and the section from Gleichen to Medicine Hat completed with "Trans-Canada standard" poles and three pairs of copper wires, it is expected that the Alberta section of the Trans-Canada telephone system will be completed before the end of

the year.

Operations of slot machines in Alberta will be abolished as from September 1 next, according to a recent announcement by Premier Brownlee.

The town of Nanton, which has always had a six day chautauqua, will only have the four day circuit next year. The guarantors had a small deficit this year.

Local News Items

Eddie Sellens of the Bank of Montreal staff, left Tuesday on his holidays.

Crops in the Carbon district are looking better every day and the fine warm weather has advanced the growing grain about two weeks. Another good shower in the district would be welcome, but grain is not suffering for want of moisture.

The Rev. L. D. Batchelor would like to receive the names of all who desire to be presented at the next Confirmation so that Preparatory Classes may be inaugurated.

Mr. and Mrs. E.J. Rouleau spent a few days in Calgary last week and returned to Carbon Sunday evening.

Our National Parks.

One little item of national good which seems to have grown out of the prevailing and much discussed business depression is the increasing number of Canadians who are this year making visits to and holidaying in the National Parks of the Dominion. This very satisfactory development may have been caused by the financial inability of many people to indulge in more expensive trips, probably so, but it may also have resulted from increased publicity and a growing appreciation of these parks and the wonderful variety and beauty of scenic and other attractions which they present.

Canada, like all countries, has made some very good as well as some regrettable bad investments, but in no other department of national administration has more foresight been shown, or a better investment made, than in the setting aside in all Provinces of generous areas as national playgrounds, and leaving them, for the most part, in a state of undisturbed natural beauty so that future generations in the centuries to come may know what this country was like before it became the home of teeming millions with all the artificialities which invention and an ever advancing machine-age may bring.

As a result of this foresight, Canada today can boast of the largest and finest system of National Parks possessed by any country in the world. Embraced within their boundaries are great mountain peaks, large lakes, wonderful rivers, beautiful waterfalls, almost every kind of wild animal known to this northern half of the continent, fish, trees and wild flowers of every variety. They are, in a word, Nature's great storehouses of natural wealth and beauty.

More than this, each National Park is an animal and bird preserve and sanctuary, thus providing a guarantee against the extinction of these wild species in this country and safeguarding Canada from similar losses sustained in other lands. In fact, Canada has done even better than this. Not many years ago people declared that the buffalo which once roamed our western prairies in countless thousands had become extinct. There were, however, a few held in captivity by private individuals in the United States. The Canadian Government, with foresight, seized the opportunity and purchased these animals, about 800 in all, twenty-three years ago, and brought them to Canada, placing them in the National Park at Wainwright, Alberta. Today there are 6,000 buffalo at Wainwright, 1,000 at Elk Island Park, Alberta, and about 13,000 at Wood Buffalo Park, Northwest Territories. All these herds are increasing.

Canadians thus have not only great national playgrounds but Nature's own zoological gardens. They constitute a national asset of great value today, which money could not buy, and which will increase rapidly in value with the passage of time. Full advantage of the National Parks should be taken by all citizens. They are easily accessible to most people, if not one park, then another one. In a year such as the present they offer the ideal holiday for people with but few dollars to spare. Take the children to them. Let them see the buffalo, the elk, the bears, in their natural habitat, and not merely by picture in school books. Let them, especially our prairie boys and girls, know the joy of roaming among the trees, and the keen delight of fishing.

Western winters are long, and sometimes excessively cold, when we must be cooped up in our houses. Therefore, let everybody get out of doors when and while they can, and revel in the beauties and the health-giving attributes of Nature. Adults will appreciate such a simple holiday, but the providing of it is a duty we owe to the children. Nature is the best doctor in the world, and we should go to her as often and for as long a visit as possible. And Nature can be seen at her best, and enjoyed to the utmost, in the National Parks of Canada,—the great playgrounds which are the property of every Canadian citizen.

Light Cattle Wanted

Canada must produce more light-weight beef cattle to hold its market in Britain and to take care of home consumption contends Howard F. Raleigh, M.L.A., Lambton West, in a report prepared for the agricultural committee of the Ontario legislature, following an investigation of conditions surrounding the cattle-breeding industry.

If the way of the transgressor is so awfully hard, why is it so many people follow it?

Promotion Well Merited

Twenty-two years of service with the Royal Canadian Mounted Police (a good deal of which was put in with the old North West Mounted Police), which took him at one time into the Arctic regions in northern Canada for a period of two years, has brought Sergeant William Shutz of Weyburn, a well merited promotion to the rank of an inspector.

It is all very well to say that the speed fiend must go, but the trouble is that that's what he thinks, too.

Suffered Severe, Painful Cramps In Her Stomach

Those terrible cramps in the stomach that double you up in pain and make you break out in a cold perspiration, may be stopped by a few doses of Dr. Fowler's Extract of Wild Strawberry.

Mrs. Lloyd Jones, 204 Argyle St., Halifax, N.S., writes:—"I have suffered greatly from severe and painful cramps in my stomach. I tried several remedies without result. One day a friend advised me to take Dr. Fowler's Extract of Wild Strawberry, so I bought a bottle and got instant relief."

Alberta Road Program

Work On Link With Trans-Canada Highway To Proceed

Construction work on the Alberta section of the proposed trans-Canada Highway will begin in the near future, it was intimated by the Provincial Government.

"Announcement of the road program was made following receipt of a wire from Senator Gideon Robertson, Federal Minister of Labor, stating not only that the Dominion Government will share with the Province on a 50-50 basis in the case of the trans-Canada Highway, but that the Province may confidently anticipate a Federal contribution on highway construction in drouth areas.

Three possible routes as Alberta links in the highway have been suggested, in answer to a request from Premier Bennett, as follows: Jasper, Edmonton and Lloydminster; Jasper, Edmonton and Wainwright; and Banff, Calgary and Medicine Hat. When a choice as between these is made by the Dominion authorities, lining up with the routes across the adjoining provinces, the way will be clear to begin actual operations.

Bounty On Wheat

Five Cents On Bushel Exported From Alberta and Saskatchewan

A resolution providing for the payment of five cents on every bushel of wheat exported from the Provinces of Alberta and Saskatchewan during the present year has been placed on the order paper of the House of Commons by Premier R. B. Bennett. This implements the announcement by Premier Bennett in his budget speech.

The resolution read as follows: "Resolved that it is expedient to bring in a measure to provide that the Governor in Council may authorize the payment out of the consolidated revenue fund of the sum of five cents on every bushel of wheat exported from the Province of Alberta and Saskatchewan of the crop of 1931, and to make provision for the determination of amounts payable thereunder, and for regulations to carry out the purpose of the act and prescribe penalties to be incurred for breach of the act or regulations."

The Oil Of The People.—Many oils have come and gone, but Dr. Thomas' Electric Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thousands have benefited by it and would use no other preparation.

Abandon Rural Fairs

Sixty-Nine Agricultural Fairs In Saskatchewan Will Be Cancelled For This Year

Due to poor conditions, 69 agricultural fairs have been abandoned in Saskatchewan, J. G. Rayner, secretary of the Saskatchewan Agricultural Societies Association and director of extension work at the Saskatchewan University, has announced.

Altogether, 75 small exhibitions will be held this year. Most of the fairs which will not be held lie in southern Saskatchewan, although a few of the northern societies have decided to put off the fairs, due to lack of prize money.

Your Asthma, Too. The efficacy of Dr. J. D. Kellogg's Asthma Remedy is not something that is merely to be hoped for; it is to be expected. It seldom fails to bring relief, and in your own individual case it will do the same. So universal has been the success of this far-famed remedy that every one afflicted with this disease owes it to himself to try it.

Deaths By Violence

Increase Of Two Persons Per 100,000 Population Is Shown

An increase of two persons per 100,000 population in the number of deaths by violence is shown in a report issued by the Dominion Bureau of Statistics. The number of deaths by violence in Canada for 1930 was 7,468 as compared with 7,151 in 1929.

Suicides numbered 1,007, a marked increase over 835 for the previous year, while homicides numbered 212 as against 182.

There were 6,249 accidental deaths, compared with 6,134 in 1929. Drownings numbered 1,057, deaths from traffic accidents 2,077 and automobile fatalities 1,289.

London women have a hatless craze.

Homeland Sends Greetings

London Papers Refer To British Columbia's Diamond Jubilee

"Hall British Columbia" is the heading of the London, England, Morning Post Leader in a recent issue referring to British Columbia's diamond jubilee as a province of Canada. The Post says the homeland sends affectionate and sincere good wishes to the province. It pays a tribute to the loyalty of British Columbia and recalls the courage and far-sighted vision of the pioneers of British Commercial enterprise west of the Rockies and dwells on the development of the province into "one of the most progressive and prosperous communities in the Empire."

The Daily Express also congratulates British Columbia on its diamond jubilee, and says: "Perhaps other provinces of our great Dominion will forgive us if in this country we have special affections for the 60-year-old province beyond the Rockies owing to her flattering habit of remaining as English as possible."

Peace River Outlet

B.C. Government Fears Project May Be Delayed

The British Columbia Government, it is intimated, views with concern the possibility that the fate of the Peace River outlet question and the future of the Pacific Great Eastern Railway may be delayed in its decision by reference to the proposed Dominion general transportation royal commission.

While favoring the appointment of such a commission for general purposes, the government does not wish these two questions to be subjected to delay. The provincial authorities, it is stated, will communicate with the Dominion Government to learn whether these matters would be referred to the proposed commission.

Toothache and neuralgia are instantly relieved with Douglas' Egyptian Liniment. A quick, sure remedy. Also recommended for burns, sprains, sores and inflammation.

Canada Praised By Sir Alexander Gibbs

For Wishing Efficient Management and Construction Of Harbours

Sir Alexander Gibbs, noted English port authority and engineer, who has been commissioned by Canada to conduct an investigation into the functioning of Canadian harbours, arrived at Quebec recently. Sir Alexander stated Canada was giving an example to other countries in wishing efficient management and construction of her harbours. His task was of the highest importance, he said, adding that he felt honored in having been chosen to conduct the inquiry.

Coast-To-Coast Telephone

Trans-Canada Telephone Line Will Be 4,263 Miles In Length

Direct telephone communication between Montreal and Winnipeg is now established, and marks the closing of another gap in a trans-Canada telephone system, which is expected to join Halifax on the Atlantic seaboard with Vancouver on the Pacific Coast, by the end of 1931. In all, eight telephone systems are co-operating in this coast-to-coast hook-up, which is designed to keep all purely Canadian telephone calls entirely within the boundaries of the Dominion.

The trans-Canada telephone line will be 4,263 miles in length, made up of 142 miles in Nova Scotia, 385 in New Brunswick, 1,952 in Quebec and Ontario, 242 in Manitoba, 465 in Saskatchewan, 418 in Alberta, and 569 in British Columbia. A total of 22 repeater stations will be necessary to boost-up the electrical impulses that carry the voice on its long journey across Canada.

Immediately preceding the opening of the Montreal-Winnipeg connection on July 4th, a third commercial line from Toronto to Winnipeg and one which provides direct communication, free from intermediate switching at any point en route, was brought into use. The first service between Toronto and Winnipeg was established in 1928, and two of the circuits now in operation are equipped with carrier current apparatus, permitting several simultaneous conversations on the same pair of circuit wires.

The eastern link of the system between Halifax and Montreal was completed in January, 1929, and the recent hook-up completes the line from Halifax to Winnipeg. Much work has been done in this connection in Western Canada, a three-channel carrier system already operating between Regina and Calgary, and the work laid out by the provincially-owned system of Manitoba, Saskatchewan, and Alberta, together with the British Columbia Telephone Company, provides for the opening of the whole line this year.

Complete in itself, Mother Graves' Worm Extremator does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

The reason so many people miss the road to happiness is because when they come to it, it looks so much like a detour they take the better-looking side.

Heavy Distribution Of Fish Fry From Prairie Province Hatcheries To Stock Lakes And Streams

More than 479,000,000 fish eggs, fry, fingerlings, and yearling fish, and a few older fish, were distributed last year from the hatchery establishments operated by the Fish Culture Division of the Canadian Department of Fisheries.

There were Atlantic salmon, speckled trout, rainbow trout, brown trout, hybrid brown trout, a few albino brown trout, loch leven trout, salmon trout, cut-throat, Kamloops trout, cut-throat and Kamloops crosses, ouananiche, landlocked salmon, pickerel, whitefish, sockeye salmon, spring salmon, coho salmon, chum salmon, steelhead salmon or trout, and Kennerly's salmon.

By such distributions, which go on from year to year, the Fish Culture Division assists nature in maintaining and increasing the existing supplies of fish in various Canadian waters, stocks lakes and streams which are barren, and introduces different species of fish into areas to which they are not indigenous, thus making more fish swim where fewer swam before and aiding both the commercial fishermen and the anglers.

The largest distribution was from the hatcheries in the Prairie Provinces. From the hatchery establishments in Manitoba there was a whitefish distribution of about 130,000,000 and a pickerel distribution of over 107,000,000. In addition, there was a salmon trout distribution of upwards of 195,000. From the hatchery at Fort Qu'Appelle, Saskatchewan, nearly 15,610,000 eggs, etc., were sent out—whitefish, by far the greater part, some pickerel eggs, and some brown trout. The distribution from the Alberta hatcheries reached a total of more than 103,250,000.

Safety In Flying

Accidents Would Be Reduced If Proper Precautions Were Always Taken

Col. W. A. Bishop, V.C., Canada's most famous aviator in the Great War, was twitted the other day, when, as he was about to take off on a flight in Eastern Canada, he made a most careful preliminary inspection of the plane that was to bear him. He checked the wires, rigging, wings and tail parts and listened to the hum of the motor. To those who twitted him, he made a remark that deserves a good deal of attention. "I'm not fussy about being the world's smartest pilot. I just want to be the oldest one."

Here is an epigrammatic utterance deserving of the notice not only of airmen but of motorists and others who have anything to do with machinery. The accident list would be materially reduced if everyone took the precaution of satisfying themselves, before applying the power, that their machines were in first-class shape. Longevity has its attractions notwithstanding the considerable passion for speed and daring.—Regina Leader-Post.

Magistrate (to woman involved in an unhappy matrimonial dispute): Did you and your husband quarrel on Friday night?

Wife: What! And the next day pay day? Certainly not!

"Mother, is it true that a camel can work for a week without drinking?"

"Yes. And your father can drink for a week without working!"—Moustique, Charleroi.

W. N. U. 1900

May Make Shipments

Of Cattle Monthly

Reservations Being Made With Council Of Western Beef Producers

Additional ocean accommodation recently made available to them will permit the Council of Western Beef Producers, with headquarters in Calgary, to ship creditable numbers of beef cattle to the British market in every month between now and January, 1932. Reservations have already been made by one rancher for space in the latter month, and many others are making their plans to forward their cattle under the auspices of the Council later this season.

Sixty head of light animals left Lethbridge recently for Glasgow, via Quebec, while 160 head of heavies went from Bowden, Lethbridge, Camrose, and Tofield areas for shipment overseas. These will about clean up the feed cattle controlled by the Council in this district, and subsequent shipments will be of grass-fed animals.

To Ensure Fair Profit

Feed Must Be Included In Price Asked For Lambs

An average spread of \$1.54 between the cost of feeder lambs and the price at which they sell is necessary for profit, according to a table of production costs appearing in the current issue of the Economic Annalist, official organ of the agricultural economics branch of the Department of Agriculture. These figures were obtained from a close study of conditions reported by 16 representative feeders in southern Alberta. The two most efficient of this group of feeders kept operating costs down to 38 cents per head, while the two least efficient showed a spread of \$2.64 per head. For the average feeder to make a profit he must sell his lambs at not less than \$1.54 per head over their cost to him as feeders.

World's Largest Steer

Weights 3,300 Pounds and Measures Over 10 feet in Length

"Wonder" is the largest steer in the world. Lean, he weighs 3,300 pounds; and his owner, E. E. Huffman, believes that he can fatten him so that he will weigh 4,000 pounds. "Wonder" is seven years old and was born on the ranch of Ralph Clumment, near Burwell, Neb. From the tip of his nose to the tip of his tail the steer measures 10 feet eight inches.

Building construction in France is showing a slight increase.

FORCED DOWN

Laura Ingalls (above) diminutive but widely-known airwoman, who was forced down by storms while on a proposed one-stop trans-continental flight from California to New York. Miss Ingalls is expected to hop off as soon as weather permits, on a solo hop to Europe.

Search Finally Rewarded

Eggs Of Harris Sparrow Found North Of Churchill

Discovery of the eggs of the Harris Sparrow, the last North American bird whose eggs have remained unknown to science despite searches over more than a century, has been made by Dr. George Sutton, a Pittsburgh ornithologist, who has returned from ice-covered wastes on the western shore of Hudson Bay.

Dr. Sutton's discovery came as the climax of a race with a group of scientists of the Canadian Ornithological Society, while both expeditions were camped less than a mile apart.

For nearly three weeks the groups raced to be the first to find the last link in the chain of more than 1,200 known birds of this continent.

The eggs, smaller than those of robins, pale green, with mottled brown marbling, will be presented to Carnegie Institute. They were found in a rhododendron-like bush near the ice, 40 miles north of Churchill, Man., on June 16.

The expedition spent two months in the Arctic, collecting birds, plants and insects. Its members, besides Messrs. Sutton and Semple, were Bert Lloyd, Saskatchewan ornithologist, and Olin S. Pettingill, photographer, of Bondon College.

How He Understood It

A young lad of six years got to pondering about Biblical matters recently and came to his mother to ask her exactly why Christ was killed. She happened, however, to be busy at the moment; moreover, she didn't want to get him embroiled in philosophical affairs too early in life. "He was killed," she explained, because the people didn't understand Him," and thought she'd got away with the thing rather neatly—until a day or so later. Then she came upon him in the nursery, solemnly explaining to a playmate that Christ was killed because He couldn't speak English.

Alberta Society Of Artists Is Formed With Object Of Raising Standard Of Art In Province

Method Was Simple

Invention Of Dr. Babcock Revolutionized the Dairy Industry

Dr. S. M. Babcock, whose invention 41 years ago of a simple way of finding the amount of butterfat in milk revamped the whole dairy industry, is dead. He was 88 years of age but had been still working away on various research problems at his private laboratory at Madison, Wis., where he had been almost a recluse for many years.

Born and schooled in New York State he joined the staff of the University of Wisconsin in 1887 and the first announcement of his invention came three years later.

Its importance lay in the fact that it brought full value for the product of his herds to the farmer who kept high grade stock, whereas formerly he had received from the creamery no better price than had been given the seller of an equal quantity of milk of low content. It also protected the manufacturing end of the dairy interests in that it made adulteration or watering of milk by dishonest farmers easy of detection.

Dr. Babcock's method, like many another important discovery, was the embodiment of simplicity. Under it today a given amount of milk is sampled from the produce of a farm, poured into a graduated beaker or test tube, an equal amount of sulphuric acid is added, and within a few minutes the butter fat has come to the top with its amount indicated by the standard markings on the tube. Another benefit of this discovery was the improvement in dairy stocks which it made certain. It became easy for the farmer to determine whether a given cow should be retained in the herd as a money-maker and mother of future income, or sent to the butcher.

Value Of the Newspaper

Use Of the Columns Of the Local Paper Best Aid To Business

The director of a well known mercantile establishment describes the local newspaper as "our best clerk." He explains that it sees more people, gets more of their individual time, works longer hours, and tells its story with more accuracy than any other clerk they can employ. These papers are going into the homes of people, and are assured of their friendly attention. This is proved by the tremendous growth in importance of the press in the last few years, according to the director, who declares that today the local newspaper is the backbone of any constructive sales effort.

A machine that cuts wood into matches turns out 40,000 splints a minute.

Worried by crop deterioration and price depression the west has not forgotten art.

Recently a chair of music was established at the University of Saskatchewan and now Alberta has organized a society of artists, with headquarters at Calgary and branches at Edmonton and other points.

Announcement of the formation of the Alberta Society of Artists is made by Dr. W. G. Carpenter, director of the Institute of Technology and Art. No members have been elected as yet, and it is anticipated that only two or three will be named during the first year. Adjudication by eastern Canadian, British or United States experts has been promised for works by aspiring artists.

One of the chief activities of the society will be to organize and assist art clubs and sketch clubs in cities, towns and villages throughout Alberta. Members of the clubs will not necessarily be members or associate members, but the society will sponsor their exhibitions, help with raising prizes, and later organize scholarships for promising students.

It will bring loan exhibitions by Alberta for display not only in larger centres but in the smaller towns. It plans to establish an art gallery and to present exhibitions of amateur and professional work in competitions in art much after the manner followed by musical festival organizers in the realm of music.

"For many years educationists in Alberta have felt that the standards of art should be raised in this province," states Dr. Carpenter. "At the institute we felt that the development of art should be raised in this way by an outstanding and youthful leader—a man whose personality and interpretation could be used as a foundation on which to create an entirely new school as distinctive in character as the Italian, Flemish, English or Dutch schools. We believe that we have such a personality in A. C. Leighton, R.B.A."

Mr. Leighton has been named temporary president of the new Alberta society.

Conference On Grain Production

Important Meeting To Be Held In Conjunction With World's Grain Show

The conference on grain-production and marketing, to be held in conjunction with the World's Grain Exhibition in Regina next summer, may well "prove to be the most valuable and ultimately the most important part of this world event," stated H. S. Fry, Saskatchewan Wheat Pool Publicity Director, addressing the opening session of the annual convention of the Canadian Weekly Newspapers Association. He mentioned that a programme of the various conference sessions is being prepared under the chairmanship of Dr. J. H. Girdale, Deputy Minister of Agriculture at Ottawa.

Professor Makes Hot Ice

"Hot ice" is the product of an amazing scientific experiment recently made by Prof. P. W. Bridgman of Harvard University. With a machine that exerts a pressure of 600,000 pounds to the square inch, Prof. Bridgman makes "ice" that is as hot as a cup of steaming coffee, and boils eggs by compressing them. In Prof. Bridgman's machine hardened steel flows like putty.

"Ah, now I have again forgotten what it was I remembered that I had forgotten."—Kasper, Stockholm.

BRITISH FLEET VISITS GERMAN HARBOUR

For the first time since the Great War the British Fleet paid a visit to Kiel Harbour, Germany, and was enthusiastically received. The main picture shows the new British cruiser "Norfolk," nearest camera, at right, at her moorings with the German ships, "Koenigsberg" and "Karlsruhe" on the left. Inset shows the hoisting of the British Ensign on the "Schleswig Holstein" by German sailors in honour of the British Fleet's visit.

WORLD HAPPENINGS
BRIEFLY TOLD

The mineral output in South Africa in a recent month was valued at nearly \$20,500,000.

There were 26 concentrated milk plants in operation in Canada in 1930, whose value of output totalled \$13,604,743.

British Columbia lumber circles are organizing to take immediate advantage of market extension possibilities thrown open by the new Canadian-Australian trade treaty.

A periscope, designed to fit a man's hat, enabling him to see a bandit, should one sneak up behind him, will be shown at the international patent exposition in Chicago.

A small bear, an owl, and 20 quails formed part of the cargo of an air freighter that arrived at Croydon, England, from Paris, France.

An exceptionally fine copy of the first edition of the works of Chaucer, the poet, printed in 1532, was sold for \$11,250 at an auction sale recently. Despite keen bidding from United States dealers the prize was secured by a London dealer.

The gold medal and diploma for creamery butter, in the largest exhibit of its kind ever shown at the Saskatoon Exhibition, went to Manitoba Co-Operative Dairies, Winnipeg, with a score of 193.8.

Two Japanese dailies in Daien, South Manchuria, the Manshu Nippo and Daien Shimbun, have started to issue Sunday evening papers in addition to their regular morning and evening papers every day.

It is not at present possible to tell when a policy regarding a proposed Peace River outlet will be enunciated, Hon. R. J. Manion, Minister of Railways and Canals, said in the House of Commons.

Miss Millie Orpen, who was awarded \$25,000 in a suit against a movie theatre, which remained open on Sunday in violation of a blue law, more than a century old, renounced the award and said she never had intended to collect it, but sued only as a test case.

A Strange Craft

Dipper Dredger Built On Tyne Has No Propelling Machinery

The strangest craft ever built on the Tyne, a dipper dredger named the Cyclops, left the river recently for the Havre (France) port authorities. The Cyclops has no propelling machinery, but her remarkable plant enables her to raise herself in the water by means of four "legs," each 70 feet long. These "legs," which can be operated rapidly, jab into the river or sea-bed. The dipper can tear into solid rock and scoop up 10 tons of material at a time.

Destroying Arabic Alphabet

Determination is shown by the government of Turkey to stamp out the Arabic alphabet. A special government commission made the rounds of Turkish departments at Angora and burned all books and papers in the taboo characters except a few historical documents.

Canada's Wool Clip

Canada's total wool clip is about 21,000,000 pounds annually, while Canadian mills use at least twice as much as this every year and Canadian consumption of manufactured woolsens equals about four times the clip.

"I hear you have a brother, doctor."
"Yes, and he is the exact opposite of me in every way."
"How nice. I should much like to make his acquaintance!" — *Der Gemutliche Sachse, Leipzig.*

SUNDAY SCHOOL LESSON

AUGUST 2

PHILIP'S MISSIONARY LABORS

Golden Text: "They therefore that were scattered abroad went about preaching the word."—Acts 8.4.

Lesson: Acts 8.5-40.

Devotional Reading: Matthew 13. 3b-9.

Explanations and Comments

Reading and Explaining God's Word, verses 22-35.—As we saw last week the persecution of Christ's followers after the Martyrdom of Stephen forced them to flee from Jerusalem, and they went everywhere preaching the word. Philip, like Stephen, was one of the seven deacons who, early in the history of the Church had been selected to help in the work, went to Samaria, where he was very successful in gaining converts to Christ. In the midst of his labors there he was suddenly directed to leave that field and go southward on the road that led from Jerusalem to Gaza. Our text says that an angel of the Lord gave him his commission, but this does not tell us who was the chosen messenger. "A vision, a dream, a human agent, some natural circumstances or instrument, all these are in Holy Scripture or in contemporary literature styled God's angels or messengers. Men saw then more deeply than we do, recognized the hand of a Superintending Providence where we behold only secondary agents, and in their filial confidence spoke of angels where we should only recognize some natural power."

Philip obeyed the divine compulsion, and met a man of great authority, the treasurer of Candace, queen of Ethiopians, who was returning from Jerusalem where he had been to worship. "Candace" was not a proper name, but, like "Pharaoh" in Egypt, or "Caesar" in Rome, was the title of the ruler. Tradition gives this man of Ethiopia the name of "Indich," and "Irenaeus" and "Eusebius" make him the founder of Christianity in Arabia Felix, and Ethiopia. Since he had been worshipping in the temple at Jerusalem he was probably a proselyte, a heathen converted to Judaism. When Philip saw him he was sitting in his chariot and reading the prophet Isaiah. "Like a man reading at daybreak and tilting his book at every angle to catch the beams of the rising sun, so this African adjusted his soul to every ray of truth that he could intercept."

The man was reading aloud, as was the way with Orientals. Jewish rabbis taught that what was read aloud would be remembered, and they often insisted upon this practice. Philip felt impelled to approach the chariot.

"Understandest thou what thou readest?" at once Philip questioned. "How can I, except some one shall guide me?" the treasurer returned, and at once invited Philip to enter his chariot and sit with him.

The passage which the treasurer was reading was Isaiah 53.7, 8. "Of whom speaketh the prophet thus?" he asked.

And Philip opened his mouth—this is a Hebrew expression indicating that the words uttered were not spoken by chance but with deliberate purpose—and beginning from this scripture, preached unto him Jesus. Doubtless he told the treasurer how Jesus had fulfilled the prophecy, and how by His death He had provided a way of salvation for all who accepted Him.

Accepting God's Word, verses 36-40.—"Faith within and water without were ready," as Bengel says, and the Ethiopian asked to be baptized when they reached a pool. Philip gladly baptized him, though a Gentile and a Negro, and then was led by divine prompting to leave him and go to Azotus and then on to Caesarea.

Mining Equipment

Carried By 'Plane

Diamond Drilling Is Now Under Way In Northland

New mining history is being written in the northland. Diamond drilling operations are under way on the shore of Hunter Bay, Great Bear Lake, within ten miles of the Arctic Circle. The property under examination, discovered by Dominion Explorers and Ventures, Ltd., is said to contain a massive body of copper sulphuric ore.

More than 27,000 pounds of drill equipment and supplies were flown into Hunter Bay by two pilots and work is proceeding 24 hours a day—because just now the sun doesn't set at all up there.

Fast Service, London To China

Opening of the new 7,000-miles combined air-rail service through the heart of Siberia in June has brought London, England, within eight days of Shanghai, China. By the fastest surface transport the journey occupies 89 days. Already the new service is well patronized.

Fairbanks, Alaska, only 120 miles south of the Arctic Circle, is hot enough at times for people to be overcome by heat.

Order Of St. John Of Jerusalem

Service Held In Westminster Abbey To Commemorate Centenary Of Revival Of Order

The Duke of Connaught, Grand Prior of the Order, the Duke and Duchess of York, and other members of the Royal Family were present at a service held in Westminster Abbey to commemorate the revival in Great Britain 100 years ago of the work of the Order of the Hospital of St. John of Jerusalem. The centenary address, delivered by the Archbishop of Canterbury, Prelate of the Order, was broadcast throughout the world.

The congregation included members of all grades of the Order, and the numerous uniforms added colour to an imposing scene. The band of the Grenadier Guards played before the service began. The men of the Ambulance Divisions of the Order were seated in the South Transept; the women of the Nursing Divisions marched in procession to the same part of the Abbey from the West Door, led by the Duchess of York, their commandant-in-chief, who then took her place in the Sanctuary. There she was joined some minutes later by the Duke of York, in the uniform of the Royal Air Force, Princess Louise, Princess Beatrice, Prince and Princess Arthur of Connaught, Princess Alice, Countess of Athlone, Princess Helena Victoria, and Princess Marie Louise.

At the conclusion of the service the Grand Prior and Chapter General, who were saluted in the cloisters by a guard of honour of the Westminster School O.T.C., went to the Great Hall of Westminster School, which had been lent to the Order for the occasion, and there presided over the annual General Assembly of the Order. The Sub-Prior read messages of congratulation from the Commandery in South Africa and the branches of the Order in Australia and New Zealand, and an address was presented to the Grand Prior from the branch of the Order in Canada. There was also a message from the Commandery of the Order in Sweden. The Sub-Prior then read a message from Mr. Bennett, the Prime Minister of Canada, announcing that, in view of the good work done by the Order, the Canadian Government had decided to exempt it specially from the scope of the resolution of the Canadian House of Commons, in conformity with which the King has refrained from bestowing any titles or honours upon his Canadian subjects. In consequence of this communication, his Majesty had been pleased to invest several Canadians with the insignia of various grades in the Order recently at Buckingham Palace.—London Times, England.

Recipes For This Week

(By Betty Barclay)

A VERY GOOD STEW

(Serves 8)

- 2 pounds sirloin steak.
- 2 large onions.
- 2 tablespoons fat.
- 4 medium potatoes.
- 4 large carrots.
- 1 can peas.
- 1 tablespoon lemon juice.
- 4 cups water.

Salt and pepper to taste.

Put the fat in large stew pan. Heat until melted. Add the onions finely chopped. Then put in the meat cut in small pieces. Simmer until a light brown. Add the four cups of water and let cook slowly until meat is tender—about 1½ hours. Dice carrots and potatoes. Add to the above and cook 20 minutes longer. When ready to serve add the peas and lemon juice and heat. Thicken with a little flour and water.

CHRYSANTHEMUM SALAD

(Serves 6)

- 6 small oranges.
- Lettuce.
- Apples.

Cut through the skin of oranges three-quarters of the way down and in very fine strips, being careful not to break strips apart. Remove orange pulp and cut in pieces. Place each orange skin in a bed of lettuce leaves and fill center with orange pieces and long slender pieces of apple. Serve with any desired dressing.

Ask Federal Aid

Want Assistance In Carrying Out Public Works In Saskatoon

Federal assistance in carrying out a public works programme in excess of \$2,000,000 will be asked by Saskatoon as an unemployment relief measure to meet requirements here for the next twelve months, Mayor John W. Hair has stated.

A payroll of \$70,000 per month for about a year would be assured if the suggested request is acceded to by the federal authorities. This would be sufficient, the mayor believes, to provide employment for all jobless married men in Saskatoon. No plans are being made for single unemployed, the contention being expressed by the mayor that their problem was a purely federal matter.

World's Grain Exhibition

All the Canadian provinces will be represented by provincial exhibits in the new building of the World's Grain Exhibition and Conference at Regina in 1932. These will total a space of 11,000 square feet.

Hospital Opened At
Chesterfield Inlet

Will Serve Nomadic Eskimo and Trappers In Far North

Bishop Turquetil and four nurses, members of the Grey Nuns Sisters' hood, arrived at Churchill completing a long journey from Quebec by Canadian National Railways. The party was en route to Chesterfield Inlet, 500 miles north of this Hudson Bay port, where the farthest north hospital on the continent opened last week. The veteran Roman Catholic churchman, known throughout the continent as the "Bishop of the Arctic," left with the nuns in his 25-foot motor boat on the hazardous trip along the rocky west coast of Hudson Bay.

With the opening of the hospital His Lordship sees the realization of a dream he has had for nearly two decades in the barren country of northern Canada. The hospital will serve the nomadic Eskimos and the dozens of trappers that search for fur on the northern fringe of civilization. Educational courses in hygiene are planned for the younger generations of Eskimos.

Interesting War Relics

Regina Man Has Complete Set Of German Plaques

Interesting, if grim, relics of the passions and hatreds stirred by the Great War, are brought to light by J. H. Halls, of Regina, into whose possession has come a complete set of reproductions of the plaques struck by the Government of Germany commemorating various outstanding events during the dark days of 1914-1918.

The plaques were distributed to the citizenry and soldiery of Germany with the object of bolstering morale and stirring up hate, chiefly against England. They depict, among other things, the sinking of the Lusitania, Lord Northcliffe as a disseminator of lies, the triumphant German soldier conquering a figure symbolic of the Allies. All the plaques have considerable artistic merit.

Without a Country

"I am a woman without a country," declared a delegate at the Women's Co-Operative Guild Congress at Cheltenham, England, in an appeal to the government to allow a woman to retain her nationality after marriage. She was married to a Swede, who died three years ago. Through long residence in England her husband had lost his own citizenship, and by her marriage to him she now had no nationality at all.

Some butterflies have a strong perfume.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

CUT DOWN
YOUR LOSSES
BY INSTALLING
WINDOLITE

USE
WINDOLITE
IN
BROODER
HOUSES
LAYING PENS
DAIRY BARNS
SUNROOMS
ETC.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

TORONTO, ONT.

GRAIN CARGO IS ARRANGED FOR BAY ROUTE TEST

Winnipeg, Man.—Brig.-Gen. R. W. Paterson, president of the On-to-the-Bay Association, wired Hon. R. J. Manion, Minister of Railways and Canals, that 750,000 bushels of wheat is stored in Saskatoon, "definitely earmarked to go out through Churchill this fall" and that a Norwegian firm was ready to supply ships for carrying the first cargoes of grain by the Hudson Bay route.

The message followed a meeting here of the On-to-the-Bay Association executive, which discussed Dr. Manion's announcement that the Dominion Government will not accept responsibility for making trial shipments this fall from Churchill. The executive interpreted the Ottawa minister's statement as meaning the Government feared sufficient grain for the test shipments would not be available.

"Noting your statement that you have been unable to secure wheat for the purpose of the test," Gen. Paterson's message read, "I, personally, succeeded in having 150,000 bushels, at present stored in Saskatoon, definitely earmarked to go through Churchill this fall, provided that cargo space is available, and it would seem that a little effort on your part would result in your being able to obtain a great many times this amount."

"With reference to cargo space we have already put in touch with your department a Norwegian firm of shipping brokers, Joachim Greig & Co., Bergen, who are most anxious to send ships to Churchill this year."

"If there are no government ships or Canadian lines who are anxious to have the honour of being the first to carry wheat from this port, I would suggest that these people be communicated with and advised that it will cost them no more, taking into consideration marine insurance, dock and harbor charges, than it would do to take the same cargo from Montreal, which, I understand, is your latest proposal, and I think you will have no difficulty in adjusting the situation."

"Representatives of a Vancouver shipping firm called this week and are now on their way to Ottawa to interview you with reference to inward cargo rates. Possibly you can make this fit in such a way as to greatly facilitate the object we are trying to attain."

Accepting the challenge of the Federal Government, Saskatchewan will supply the entire shipment of 750,000 bushels of wheat for the first official test of the new Hudson Bay route. The senior wheat producing province of the Dominion has the grain and places the responsibility of providing the boats on the Federal Government.

These arrangements have been completed by Hon. J. A. Merkley, Minister of Railways, Labor and Industries, who said that he had received positive assurance of the amount of grain needed for the test shipment.

Private Depositor Will Draw Regular Interest

Only Current Commercial Accounts Affected By Decrease

Ottawa, Ont.—Private depositors will not be affected by the reduction of one-half per cent. in the interest rate on current accounts as announced by Canadian banks, according to local banking officials. The reduction from two per cent. to 1½ per cent goes into effect August 1, and is strictly on current commercial accounts. Private depositors will continue to draw three per cent. interest as usual, it was said.

Increase In Tourist Business

Ottawa, Ont.—The widely-held belief that tourists are not touring in these days of "tight money" has been discredited so far as Ottawa is concerned. Civic figures just released show 1,938 persons have registered at the Landsdowne Park tourist camp so far this summer, an increase of 50 per cent. over the same period last year.

W. N. U. 1900

Saskatchewan Relief

Hon. Howard McConnell Says Hundred Thousand Residents Will Require Aid

Montreal, Que.—About 100,000 residents of Saskatchewan will have to be fed by the Provincial and Federal Governments during the coming winter. Livestock to the number of 150,000 head will have to be taken from drouth areas to spots where the feed is more plentiful. Yet Saskatchewan will recover its lost wealth, according to Hon. Howard McConnell, K.C., provincial treasurer and minister of municipal affairs, who was in Montreal to consult with officers of the Royal Bank of Canada in connection with the financial situation of the western province.

Out of the 302 townships in Saskatchewan, 75 will require Federal and Provincial relief during the coming winter, according to Mr. McConnell.

"The drouth has been so bad," he said, "that even potatoes have not grown in some sections of the province. That is why we will have to feed so many people through the winter. It is without a doubt the most severe rainless spell that the west has had since the beginning of the century."

"People here in the east," he continued, "are inclined to reproach us sometimes, because we are now in distress. But you must remember that we now have had three years of bad crops and very low prices. Actually we have not had a good rain in Saskatchewan since July, 1929."

But the present condition in Saskatchewan is only temporary, according to Mr. McConnell. Low crop yields in wheat producing countries, smaller acreages seeded, will soon absorb the wheat surplus, then prices will rise once more and Saskatchewan will be well off.

Building Road In North

Will Open Up Route From Flin Flon To Hudson Bay Junction

Regina, Sask.—Construction on the new government road from Turnberry to Hudson Bay Junction, opening up the route from Flin Flon, Manitoba, is proceeding in good shape, according to Hon. J. A. Merkley, Minister of Railways, Labor and Industries, who said that it is expected the earth grading will be completed by the coming fall.

At Turnberry the Manitoba department meets the Saskatchewan road and proceeds north to The Pas and Flin Flon.

All this construction is being undertaken by relief work.

Mafeking Railway Cut-Off

Ottawa, Ont.—Although a report has been received on the projected Mafeking railway cut-off in Manitoba, the Department of Railways and Canals has not completed a study of it. This information was given in the House of Commons by Hon. R. J. Manion, the minister, to A. L. Beaubien, Liberal, Provencher.

Broadcast From Great Height

Friedrichshafen, Germany.—The first radio broadcast from the stratosphere was heard last week when a diminutive balloon, with automatic registration instruments and vest pocket radio sending apparatus attached, told members of the Graf Zeppelin crew it had reached an altitude of 50,000 feet.

PRESIDENT-ELECT

Carleton W. Stanley, President-elect of the famous Dalhousie University in Nova Scotia.

Trans-Canada Flight

Non-Stop Flight From Halifax To Vancouver In August

Vancouver, B.C.—The first non-stop flight from Halifax to Vancouver will take place during the Canada Pacific exhibition from August 22 to 29 here, it is announced by J. K. Matheson, general manager of the Vancouver Exhibition Association, who has been in communication with sponsors of the flight.

The flight was originally planned to take place during the airport celebrations, but now it is likely to be tied up with the exhibition. J. Williams, agent for the flyer in Montreal, has forwarded details for consideration by a well-known French war ace, who is at present in Canada, it is stated.

Proposal also has been made from the same source that a round-the-world flight in an attempt to break the Gatty-Post record be made, starting from Vancouver on the opening date of 1932 exhibition, and being completed here before the close, seven days later. This matter will also be considered by directors.

Appointment Not Made

Post Of Assistant Commissioner Of R.C.M.P. Still Vacant

Ottawa, Ont.—Contrary to a recent report that Col. James W. Spalding, of Regina, had been appointed senior assistant commissioner of the Royal Canadian Mounted Police, Commissioner Cortlandt Starnes says Supt. Spalding will remain in the west.

No appointment to the post here has been made, although the retirement to pension of Lieut.-Col. G. W. Worsley, senior assistant commissioner, is announced.

Reduced To Lowest Limit

Paris, France.—French armaments have been reduced to the lowest possible point the government declared in a memorandum on disarmament issued in answer to the request of the League of Nations Council for information preliminary to the 1932 world disarmament conference at Geneva.

Shipping traffic at the port of Havre, France, has nearly doubled in the last ten years.

There are about 16,000 licensed airplane pilots in the United States.

Reviews Present Government Activities

Premier Anderson Says Next Saskatchewan Election Will Not Be Held Until 1934

Yorkton, Sask.—The next provincial election in Saskatchewan will not be held until 1934. This was one of the announcements made both by Premier Dr. J. T. M. Anderson and Hon. A. C. Stewart, Minister of Highways, when addressing 5,000 people here.

Mr. Stewart reviewed some of the activities of the government, and the premier outlined the policy of the government with respect to future activities. He stressed the problem of relief, citing that everything that is humanly possible was being done to meet the situation, which he admitted is a serious one.

Premier Anderson referred to the loyalty of the members of the government, and also all the supporters in the legislature, citing some of the criticisms levelled at him and his government, and then explained what efforts had been made to meet the situation in the past and what the government intended to do in the future.

Among the matters the premier discussed were, carrying out of pre-election promises, the reorganization of the education department to include lessons for rural pupils in the higher grades over the radio; restoration of natural resources, and the consequent emoluments to the province; land settlement policy and loans to help settlers; provincial parks system; encouragement of prospectors to develop the north country mining territory; the public debt; financial arrangements with the banks for the wheat pool; relief in the dry areas, and for urban centres; the calling of an economic conference this fall for debt settlement between debtors and creditors; and the 21 demands of the United Farmers of Canada, Saskatchewan section.

Must Pay Taxes

Tax Collectors In Germany Will Play No Favourites

Berlin, Germany.—Germany's tax collectors are working on orders to get what is coming to the government and pay no attention to the excuses of taxpayers in arrears. A decree established heavy penalties for citizens who have made faulty declarations.

Without waiting for the outcome of the conference of nations at London, England, the Reichsbank has begun issuing almost \$250,000,000 in silver money under the recently-decreed change in the currency law.

Prevention Of Crime

Rochester, N.Y.—The crime experts of the International Association of Identification, gathered here, had ringing in their ears the advice of Police Commissioner Edward P. Mulrooney, of New York City, that the police should pay more attention to preventing crime among the youth of the land.

Declare Moratorium

Topeka, Kans.—Many Kansas counties have declared a moratorium on taxes in an effort to assist farmers of the country's chief wheat-producing state who are offered the lowest prices in history in a year which brought their largest crop.

PUBLIC HEARING IN BEAUHARNOIS PROBE IS ENDED

Ottawa, Ont.—Climaxing the final public hearing of the Beauharnois committee, R. O. Sweezy, head of the colossal power scheme, assumed full responsibility for every dollar of campaign funds with which the Beauharnois name has been connected. The contributions were on his responsibility and he, personally, assumed the whole liability. The sums paid out by the Beauharnois Company, said Mr. Sweezy, represented loans to him and already had been repaid in part.

Parliamentary circles were agog with conflicting rumors relating to the report of the committee. A conference will be held with the government of Quebec, it was stated, arising out of the fact that that company secured its power rights through a charter granted by the legislature of that province.

For the past two weeks the sittings of the committee have stolen the spotlight from the House of Commons. The evidence has been prolific with features, not the least of which was that campaign funds, totalling in excess of \$950,000, had been distributed by Mr. Sweezy among the Liberal and Conservative Federal and Provincial Parties.

The cost of the Beauharnois project to date has been \$29,768,816, stated A. F. King, committee auditor. In an exhaustive analysis of the balance sheet of the company, Mr. King said it would be fair to assume that slightly over \$7,000,000 represented "water." When questioned later on this point by G. H. Montgomery, K.C., chief Beauharnois counsel, Mr. King admitted he had not taken into consideration any value that might be attached to the company's charter from Quebec, or the approval of its plans by the Dominion.

When referring to campaign funds contributions, Mr. Sweezy said there had been "tacit approval" by the board of directors to their payment. He explained the money had been paid by Beauharnois to a company owned entirely by him. He was responsible for the repayment of the sums, and already had paid back a considerable proportion.

Premiers Confer At Winnipeg

Discuss Plans For Relieving the Western Wheat Crisis

Winnipeg, Man.—Prairie government representatives were in conference here discussing moves that will aid in relieving the west's wheat crisis. Premier J. E. Brownlee, of Alberta, was present and joined Premier John Bracken, of Manitoba, and Hon. Jas. F. Bryant, K.C., Saskatchewan Minister of Public Works, in conferring with wheat pool heads regarding handling and financing of this year's crop.

Establishment of an interprovincial trading corporation and reorganization of the wheat pools, permitting marketing of the 1931 crop according to a formula laid down by Premier R. B. Bennett, was said to have held the attention of the conferees. It was learned a great deal of work was accomplished towards launching the organization.

Pledge Support To Soviets

Resolution Adopted By Ukrainian Farmers In Session At Winnipeg

Winnipeg, Man.—Final session of the Ukrainian Labor-Farmer Temple Association here was taken up with the adoption of resolutions covering varied subjects.

The convention voted support for a campaign to prevent deportation of workers and "vagrancy" proceedings against unemployed men; pledged support of the Russian Soviet and urged the organization of workers and farmers into associations to defend their political and economic interests.

Crop Outlook Improved

Washington.—The United States Commerce Department reports an improved crop outlook in western Canada, good crop conditions in Australia with a good wool crop in view and a slight improvement in economic conditions in the Far East.

FAMOUS WOMEN SHOTS ATTEND BISLEY MEET

This picture shows two women competitors taking part in the Bisley Shooting Meet in England, and proves conclusively that a rifle is more dangerous in some women's hand than is a rolling pin. The fair competitors are Miss E. Babcock (left) and Miss M. Forster (right), the latter being the winner of last year's King's Prize. To win this most coveted trophy in the rifle world, Miss Forster had to shoot her way to victory over 1,000 experts from all parts of the British Empire.

**CONSTRUCTION SOON TO BEGIN
ON TRANS-CANADA HIGHWAY**

Construction work on the Alberta
section of the proposed trans-Canada
highway will begin shortly. The Do-
minion Government has advised the
Province that it will share equally
with it on the cost and the only point
that still remains to be settled is the
route.

Three possible routes as Alberta
links in the highway have been sug-
gested in answer to a request from
the prime minister, as follows: Jasper,
Edmonton and Lloydminster; Jasper,

Edmonton and Wainwright; and Banff,
Calgary and Medicine Hat. When a
choice as between these is made by
the Dominion authorities, lining up
with the routes across the adjoining
provinces, the way will be clear to
begin actual operations.

Premier Brownlee received a wire
from Senator Gideon Robertson, fed-
eral minister of labor, stating not only
that the Dominion government will
share with the province on a 50-50
basis in the case of the trans-Canada
highway, but that the province may
confidently expect a federal contribu-
tion on highway construction in the
drouth areas.

**GOVERNMENT MAY BUILD DAMS
FOR WATER STORAGE**

A survey of the water shortage situ-
ation in the southeastern part of the
province, particularly with a view of
the possibility of providing a system
of reservoirs, is now under way by
the provincial Department of Agricul-
ture, states an Edmonton dispatch.

The government has been giving
some thought, according to Premier
Brownlee, as a part of the relief work
program, to the building of dams in
certain coulees and streams in the
southern range country, and has been
endeavoring to see if in this way re-
servoirs can be created for stock pur-
poses.

The districts under survey at present
include open country in the Hand Hills
Acacia, Bow Valley and Cypress con-
stituencies, where there is a serious
shortage of water and stock is suffer-
ing. It is with a hope of helping to
solve this problem that the work is
being undertaken.

SUMMER IN THE MARITIMES

The pictures show:
above, the new Lakeside
Inn, the C.P.R. hotel at
Yarmouth, N.S.; centre:
the bathing pool in the
grounds of the Pines
Hotel, Digby, N.S.; and
below, the Algonquin
Hotel at St. Andrews-by-
the-Sea. Inset: a typical
satisfied junior patron of
Maritime sea, sand and
sunshine.

Sunshine and gleam-
ing sands! The
laughter of scamper-
ing childhood mingled
with the organ-swell
of the Atlantic break-
ers as the cream onto
the shores of the Bay
of Fundy! Here is
holiday; health and
happiness. All along
the beautiful coast
of Nova Scotia are
countless watering
places, whose names
have become house-
hold words among
lovers of the seaside. Excellent
hotels are at the disposal of
visitors and the shoreward
scene is no less lovely than its
marine companion. The Anna-
polis Valley needs no introduc-
tion to Canadians or to its
countless American visitors. It
has been rightly called Canada's
Devon, with its flourishing
orchards and pasture lands and
its countless picturesque farms

and hamlets. A few hours journey by palatial steamer from Saint John, N.B., Digby, with its Pines Hotel as the
hub of activity, rivals Kentville with its Cornwallis Inn, and Yarmouth with its new Lakeside Inn, in extending
hospitality to the holiday-seeker. Golf, tennis, bathing, fishing, yachting and innumerable beautiful motor
drives are only a few of the recreations available. On the New Brunswick mainland, father, as it were, to this
stalwart family, the Algonquin Hotel, at St. Andrews-by-the-Sea, sets a standard of summering unrivalled any-
where on the continent. The luxurious hotel, with its many attached cottages, is the centre of one of the most
exclusive colonies of the Dominion. The golf links, known throughout the length and breadth of the country as
one of the finest championship courses available, are meet namesake of the home of the royal and ancient game
in old Scotland. The Canadian Pacific Railway places all these resorts within easy access of their many devotees.

CHAPTER XXIV.—Continued.

"I'd be proud to be thought in the same class," retorted Nick. "He's a real man. And we'd be suffering now if he hadn't known that most of these islands have no running streams. He saved every drop of water aboard the 'Sea Bird'; but if we're not picked up in another week someone has got to go—or dig a well!"

"But those small boats—how long would they live if another hurricane came up?"

"Five minutes, perhaps; but what else is there to do now that the yacht has gone to pieces on the bar? Myer could send the men, of course, but I'd rather be doing something—yet you object if I even build a fire! Do you want to spend the rest of your life here?"

"I hate it! And you're not even decently polite."

Her childishness made Nick grin, and restored his good humor.

"I wonder," he said, "if Robinson Crusoe was a Chesterfield! I'm sorry if my manners offend you, Angela, but I'll admit that I feel on edge today, and want to get off by myself. I can't get Gay out of my thoughts, and how she must be suffering. Perhaps the 'Sea Bird' wasn't mentioned in the papers; but it's long past the time when I should have been back, and it makes me crazy—it makes me wild—to think—"

He broke off suddenly, and strode away. Angela started after him, then stopped, and looked down at her clean white shoes. For no toilet requisite—nothing that could add to her personal adornment, even shoe polish, had been left behind when the "Sea Bird" was abandoned. Angela preferred hunger and thirst to looking unattractive. She gazed with scorn at Amy Myer's unpolished Oxfords; at Nick's collarless neck; at the Colonel's soiled Palm Beach suit. She rebelled at the thought that in another month her own clothes would begin to appear grimy. Now, although she really longed for a tramp with Nick, she could not endure the thought of soiling her daintiness; and he was evidently in no mood to wait while she changed to something suitable.

Angela sank down on a seat that the despised captain had cleverly con-

structed from a barrel, and gazed gloomily out to sea. It was a scene of enchanting loveliness, but she looked upon it with blind eyes. She was thinking of Nick, angrily, and with a sense of helplessness. She admitted that she had never worked so hard to gain a conquest—yet she had evidently failed. She felt baffled—humiliated—enraged, and with it all, miserably unhappy. It made her furious that a quiet little woman like Gay Hastings could hold a man captive—her own husband, too, whom she hadn't seen for weeks! Who was she anyway, to have married a man like Nick who had such wonderful possibilities? What a glorious lover he would make! He was better looking than any man Angela knew. He was handsome even without a collar, and how many men could stand that test? Take him away from provincial Bakersville—that stupid bank, and his stupider wife and babies, and he would go far—get anywhere. But to see him wasting himself providing for a family that grew with indecent rapidity—

Angela's lip curled in disgust. Jim had implied that she could not succeed. Her face grew hard. She would succeed! She would win Nick Hastings if only to show Jim Halliday that she hadn't lost her charm. After all, a desert island was not a bad setting. Her prey could not escape; give her a month more. . . . She never failed. . . . and perhaps . . .

Angela smiled, but her face was not beautiful, nor her eyes innocent, as she looked out to sea.

As for Nick, he tramped on desperately, his mind filled with regrets that he knew were futile. He had done what at the time had seemed the sensible thing to do, yet he was torn with the thought that he should have gone home at the completion of his business. The old nervousness that had been his before leaving Bakersville, was back upon him. People irritated him, especially Angela. He wished she would transfer her attentions to the Colonel, who would doubtless appreciate them. It might keep him from talking so persistently about the coast of Maine, a subject, which, for some mysterious reason, always put Angela on edge.

Nick wondered, as he tramped along, if her distaste for the subject had anything to do with that horrible story which the Colonel had recounted the night before the hurricane—the night Angela had kissed him. He had hardly thought of it since. There had been too much else to think about; yet the whole thing was queer; her behaviour after the story—the midnight confidence she had forced upon him, and the kiss—mostly the kiss. It struck him for the first time that Angela was subtle, and he hated subtle people. What was it Gay had once said about not trusting Angela Halliday?

Gay! As always, the thought of her was like the touch of a cool hand; then the realization of what she was suffering rushed back again, and he could have wept. Suddenly, realizing that he had walked too rapidly in the hot sun, he sought the shade of a clump of palms, and threw himself down, looking out hopelessly across the blue—searching the horizon for the ship that did not come.

After a while his gaze crept back to the land, and what looked like a scrap of paper caught in the underbrush not far away. Who could have dropped it? He was a long way from camp, though a couple of days ago he had come here with Angela and Amy. Pure curiosity made him arise and grasp it. In the wilderness anything pertaining to civilization is of interest. It was evidently a sheet out of a letter to which there was no beginning, and no end. The writing was unfamiliar, but instantly he saw Gay's name and read:

"Gay Hastings' baby coming in September—first part, and Nick don't know a thing about it. She wouldn't tell because he wasn't feeling well, and she thought if he knew he'd think he couldn't leave her. She don't look real smart, and I got a notion Dr. Bennett's worried. I asked him plum out, but he didn't say much. That's the way he is—always acts like it was none of my business. Anyhow I hope Nick'll get back soon. She nearly died last time, and those boys is getting a handful though old Mr. Bartlett helps her a lot. Thought you'd like to know we was all well.—Little Martha

In a flash Nick understood. This was a letter from Julie Nipps, who had a passion for writing letters. It was a letter to Angela. Julie disliked Angela, but she would write to Satan himself if she thought he would reply. She watched for the postman as a cat watches a mouse. Gay, out of pure

sympathy, was always sending her picture postcards when they were away.

Nick sat down hastily. What did this mean, anyway? He read again, aloud this time: "Gay Hastings' baby is coming in September." In his surprise he thought: "It's a lie; but why should Julie invent a yarn like that?" Then he saw light. Why, it was true! Of course it was true! That was exactly what Gay would have done if she thought that he needed rest, and freedom from anxiety. What a dunce he had been not to have guessed! A host of memories crowded back upon him by which he might have known that he had not been absorbed in his own worries. And the things he had said about expenses—about contracting doctors' bills—about their keeping well for the next year. . . . Of course she wouldn't tell him till she had to. And now—what was she thinking—what was she suffering—alone—facing what she had gone through for little Nick—thinking—perhaps, that he was never coming back to her. . .

Nick turned, burying his face in his arms, longing for the relief of tears that would not stir. Then came a thought that filled him with blazing anger: Angela had known! No mail had reached them since leaving Kingston. She had had this letter all the time, and had let him start out upon this cruise knowing that his place was at home. How could she? Had she no sympathy for Gay—no understanding of her need of him? Even though Angela had never had a child, she should have known instinctively that, had he understood, no cruise however alluring would have tempted him.

September—the first of September, and it was now July. It might be months before they were picked up. He arose shakily, filled with an insane desire to put his hands on Angela's slender throat—that lovely throat that made such lovely music—and choke her till she begged for mercy. He started toward camp, then stopped, appalled at his own anger. He must calm down before he faced his friends. He must control himself before he talked with Angela.

He turned about, and began his patrol where he had left it off, walking rapidly, his thoughts in a wild chaos. He looked neither to right nor left. Beauties that should have stirred him he passed unnoticed. Suddenly he realized that he was breathless, and that he had reached the point of land where he had meant to pile brush for a signal fire. He paused, and looking out to sea, uttered an exclamation of incredulity. He shaded his eyes with his hand for a long moment; then turning with furious haste, began making a pile of leaves—of twigs—of branches—of anything that would burn, working like mad before he stopped to gaze once more across the water.

Faint, almost imperceptible, yet nearer than it had been before, a final spiral of smoke was visible against the horizon.

(To Be Continued.)

Minnesota In the Lists

Preparing To Enter Exhibits At World's Grain Show

Minnesota producers are getting ready to enter the lists against those of other countries in the competitive classes of the World's Grain Exhibition and Conference to be held at Regina in 1932. A campaign is now being conducted by the Minnesota Crop Improvement Association among its members with the purpose of encouraging them to prepare special plots so that they may thus secure high class samples to enter in the various classes.

Flaws In Steel Rails

Remarkable Instruments Detect Defects In Track While Moving At a Fair Speed

Looking into steel rails for invisible flaws, two remarkably equipped cars have been travelling over western lines of the two Canadian transcontinental railways during the past few weeks.

Moving at a fair speed over the rails these robot detectives mark the invisible faults that might cause a split rail, and forever damn the guilty rails in the eyes of section crews by automatically painting them white. Up in the car the needle of one of the instruments is tracing a continuous line on paper. When the rails are good the line is comparatively level. When a flaw is traversed the infallible needle bucks, or ducks, and down goes the white splash of paint.

Invented by the late Mr. Sperry, these cars are leased to railways by the Sperry Rail Detector Company, of New York. Each carries its own chief operator and motorman. Over every section of track covered, the local section foreman follows with his gang, to make immediate replacements.

THE RHYMING OPTIMIST

By Aline Michaelis

WIND FROM THE SEA

Tonight the wind is from the sea
And bears the tang of salt to me.
Just here, the honeysuckle grows,
And there the trellis with the rose
Stands close beside the garden gate
To tempt the passer with its freight
Of wine-sweet, petalled loveliness.
The daisies in their snowy dress
Along the pathways nod and bend
As gracious women greet a friend.
Yet when the wind is from the sea
It brings strange messages to me;
I feel, within, a sudden need
Of stinging spray and drifting weed,
Of sea-weed red as any rose
Tossed lightly where the strong tide flows.

Ah, I would know the press and surge
Of ocean in its restless urge!
Tonight the wind is from the sea;
What can the roses say to me?

Persian Balm is alluringly fragrant.

Adds a charming refinement to the most finished appearance. Creates and preserves complexions of surpassing loveliness and texture. Softens and whitens the hands. Cools and dispels all irritation caused by weather conditions. Swiftly absorbed by the tissues leaving never a vestige of stickiness. A peerless toilet requisite. Invaluable to all women who care for elegance and distinction.

Aeromobile May Be Speedy

Vehicle Driven By Air Propeller Invented In Germany

Great speed at low cost is expected from the aeromobile, the machine recently invented by two German inventors. The vehicle is described by them as an automobile driven by an air propeller. The air screw lies horizontally on the back part of the chassis. Above it are several parallel 'plane surfaces forming a sort of lattice-work arrangement, the angles of which may be altered. The air stream produced by the propeller breaks through these surfaces, providing the driving power.

"Mothers have a pretty bad time."

"Why?"

"Well, they're always afraid that some girls will marry their sons and that some men won't marry their daughters."

Little Helps For This Week

"The Lord bless thee, and keep thee; the Lord make His face shine upon thee, and be gracious unto thee."
—Numbers vi. 24, 25.

In having all things, and not Thee, what have I?
Not having Thee, what have my labors got?
Let me enjoy but Thee, what further crave I?
And having Thee alone, what have I not?
I wish nor sea, nor land; nor would I be Possessed of heaven, heaven unpossessed of Thee.
—Francis Quarles.

There is no holiness if the Lord withdraw His presence; no wisdom if His Spirit ceases to direct. In our own nature we are as unsettled as the sand upon the mountain; but in God we have the stability of the throne in heaven. Kindle, O Lord, our hearts with light and life by the holy fire of Thy love and blessing.
—Thomas A. Kempis.

Miller's Worm Powders are a pleasant medicine for worm-infested children, and they will take it without objection. When directions are followed it will not injure the most delicate child, as there is nothing of an injurious nature in its composition. They will speedily rid a child of worms and restore the health of the little sufferers whose vitality has become impaired by the attacks of these internal pests.

Dehydrated Apples

Stocks On Hand In the Okanagan Valley Now Practically Exhausted

Stocks of dehydrated apples in the Okanagan Valley have practically been exhausted. Only very small amounts are in the hands of packers. Since fresh apples have not been available there has been a good demand for the dehydrated product. Reports from the east are to the effect that only small quantities are now on hand, not over 2,000 boxes, all told, are in the hands of evaporators.

Took it Before Childbirth

"I felt much stronger"

"I FIRST took Lydia E. Pinkham's Vegetable Compound before childbirth because I was so weak. After taking it, I felt much stronger. I could sleep better and I could do my work."

"I have taken the Vegetable Compound for eleven years off and on whenever I need a builder and I recommend it." Mrs. Emily Schindel, Renown, Saskatchewan. This is only one of thousands of letters praising this simple, home remedy and recommending it to women who need a strengthener.

Lydia E. Pinkham's
VEGETABLE COMPOUND

SCIATICA?

Here is a never-failing
form of relief from
sciatic pain:

Take Aspirin tablets and you'll avoid needless suffering from sciatica—lumbago—and similar excruciating pains. They do relieve; they don't do any harm. Just make sure it is genuine.

LETTERS TO THE EDITOR

The Editor, The Chronicle,
Dear Sir:

I am sending you the enclosed letter
and hope you will have room for it in
your paper:

THE PREVALENCE OF GOITRE IN THE CARBON DISTRICT

Some few years ago a farmer living
less than a mile from Carbon, and
who was going in strong for pigs and
great losses because the little pigs
were very frequently born without hair
and after a few days would die. He
wrote to the Department of Agricul-
ture to ask what could be done about
it. The reply was that the pigs were
suffering from a form of goitre and
that it was caused by insufficiency of
iodine in the food of their mothers.
They told him also that goitre is usu-
ally prevalent in districts which are
a long way from the sea owing to the
lack of iodine in the water and even
in the vegetation. They recommended
that a few grains of iodine should be
added to the drinking water of the
pregnant sows. He followed their ad-
vice and had no more hairless pigs.

Now, however, the progressive farm-
ers around Carbon do not need to add
iodine to the drinking water of their
stock as they can buy iodized salt
to feed to them at the cost of a few
cents more than ordinary salt. For
even if the stock do not show signs of
goitre, yet they thrive better if they
get a little iodine.

Now it is well known that many
human beings around Carbon also
suffer from a mild form of goitre. Es-
pecially young girls and women, for
it is a curious fact that about ten
women suffer from goitre to one man.
At least two young women in the
neighborhood had to be operated on
and though comparatively young, have
both died since, not from the opera-
tion, but because their hearts were
weakened by goitre and could not re-
sist pneumonia or influenza.

Well, of course most people are just
as careful of their families as the
farmers are of their stock and buy
iodized salt or think they buy it.

Now I come to the aim and object
of this long letter, which is: don't buy
salt which is not marked iodized, and
thinking that it is. At least three times
lately I have sent for salt to different
stores and have received salt which
was marked hygienic, sanitary, free
running, but said nothing about being
iodized and storekeepers have assured
me that they thought it was iodized.
However, it stands to reason that if
it was it would be marked, for manu-
facturers are not in the habit of hiding
their lights under bushels.

Yours truly
Y Z

CHANGE IN WHEAT POOL POLICY

(Continued from front page)

the decision not to take deductions.

The desirability of growers deliver-
ing every possible bushel of grain to
Pool elevators is emphasized in view
of the fact that members have invest-
ed over eight million dollars in these
facilities and have built up an efficient
elevator system. In order to secure
full advantage of the earning capacity
of this system, it becomes necessary
to pass through it the largest possible
volume of grain. The policy of service
under which the Alberta Pool elevator
system is operated eliminates any pos-
sibility of excessive revenue which
might be collected were the system
operated for profit. It will be obvious
that the greater volume handled
through Pool elevators the smaller the
cost per bushel.

The Coarse Grain Pool will not be
operated this year, but coarse grains
will be handled by the Pool elevator
system on a commercial basis, full
cash payment being made for same
as during the past year.
